

LIVE ON BNB CHAIN

PISON

The On-Chain Intelligence Infrastructure

Create Tokens. Monitor Smart Money. Analyze Blockchain Activity.

pisondapp.com | X: [@Pisondapp](https://twitter.com/Pisondapp) | Telegram: t.me/pisondapp

Vision

Blockchain activity is exploding. Interpretation is still missing.

- Millions of daily on-chain transactions
- Whales move liquidity before narratives form
- New tokens launch across multiple ecosystems
- Most users cannot convert data into decisions

**Pison transforms
blockchain activity
into actionable
intelligence.**

Launch + Intelligence in one platform.

The Problem

Web3 infrastructure is fragmented.

Deploy

Verify

Analyze

Monitor

Users are forced to jump across multiple tools for token launch, verification, analytics, and wallet monitoring.

- Delayed reaction to on-chain signals
- Poor visibility for communities and founders
- No unified launch + intelligence workflow

The Solution

Pison combines token infrastructure with on-chain intelligence.

Token Creation

Simple and advanced deployment

Auto Verification

Contracts verified after creation

Wallet Intelligence

Balance, activity and whale detection

Token Analytics

Transfers and activity feeds

Smart Monitoring

Future alerts and smart money systems

Multi-chain Ready

BNB live, Base/Polygon coming soon

Product Overview

Core infrastructure live today.

Token Launcher

- Simple token deployment
- Advanced token deployment
- Taxes, burn, anti-whale

Verification Engine

- Automatic contract submission
- Status checker
- Explorer integration

Wallet Intelligence

- Multi-chain scanner
- Whale classification
- Activity scoring

Analytics Dashboard

- Token transfers
- Transaction history
- Contract visibility

Why Pison Wins

Launch + Intelligence is the product wedge.

Platform Type	Launch	Analytics	Wallet Intelligence
Standard Launchpads	Yes	No	No
Analytics Platforms	No	Yes	Partial
Pison	Yes	Yes	Yes

Market Opportunity

The demand for on-chain intelligence is expanding rapidly.

- Multi-chain ecosystems
- Meme coin infrastructure
- Smart wallet analytics
- Whale tracking systems
- Institutional blockchain monitoring
- AI-powered intelligence infrastructure

Positioned at the intersection of:

- Blockchain infrastructure
- Analytics platforms
- AI systems
- Web3 intelligence

Live Product Traction

Pison is already live infrastructure.

BNB Chain

Live

Real Users

Onboarding

Base/Polygon

Coming Soon

V2 Expansion

Institutional-grade intelligence infrastructure.

Smart Money Engine

- Profitable wallet tracking
- Whale accumulation analysis
- Sniper wallet monitoring

Risk Intelligence Scanner

- Honeypot detection
- Hidden tax analysis
- Contract risk scoring

AI Analytics Layer

- Predictive monitoring
- Anomaly detection
- Momentum analysis

Revenue Model

Multi-layer revenue infrastructure.

Current Revenue

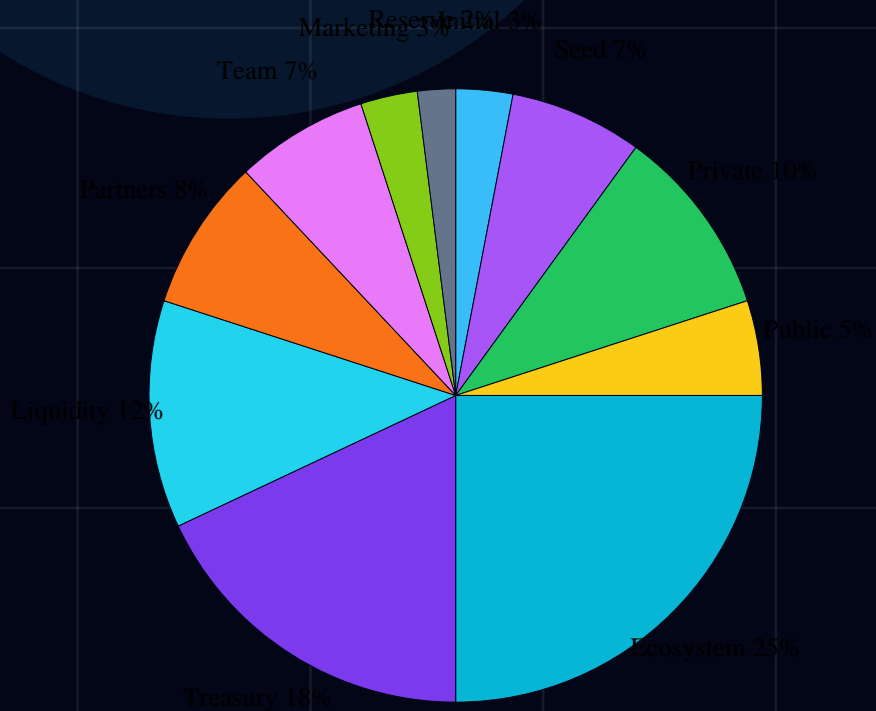

- Simple token deployment fees
- Advanced launch feature fees
- Contract verification value layer

Future Revenue

- Premium analytics subscriptions
- Whale alert systems
- AI intelligence dashboards
- Enterprise APIs

Tokenomics

PISON total supply: 10,000,000,000

Allocation	%	Tokens
Initial	3%	300,000,000
Seed	7%	700,000,000
Private	10%	1,000,000,000
Public	5%	500,000,000
Ecosystem	25%	2,500,000,000
Treasury	18%	1,800,000,000
Liquidity	12%	1,200,000,000
Partners	8%	800,000,000
Team	7%	700,000,000
Marketing	3%	300,000,000
Reserve	2%	200,000,000

Roadmap

From live launchpad to cross-chain intelligence network.

Phase 1 - Foundation

Token launcher, wallet scanner, verification engine, analytics dashboard, mobile support

Phase 2 - Intelligence Expansion

Smart money tracking, whale monitoring, multi-chain support, advanced analytics

Phase 3 - AI Infrastructure

Predictive intelligence, risk scoring, institutional tooling, AI analytics layer

Phase 4 - Ecosystem Scaling

Global partnerships, CEX integrations, API infrastructure, cross-chain intelligence network

Long-Term Vision

Pison is building more than a launchpad.

**The future of blockchain
is not only creation.
It is intelligence.**

- Blockchain intelligence layer
- Smart analytics infrastructure
- Multi-chain monitoring ecosystem
- AI-powered Web3 intelligence network

PISON

The On-Chain Intelligence Infrastructure

Launch Smarter. Analyze Smarter. Build Smarter.
